ALEBIE AYALEW

Information Systems Student | Web Development | Computer Networking
+251 933 834 900 • ayalewalebie@gmail.com • Bahir Dar, Ethiopia

PROFESSIONAL PROFILE

Information Systems student at Bahir Dar University with hands-on academic project experience in web application development, database integration, IoT systems, and Cisco networking. Enjoys turning practical problems into useful digital solutions, learning new technologies, and troubleshooting systems methodically. Seeking opportunities to contribute, learn from experienced teams, and grow as a developer and network professional.

EDUCATION

Bachelor of Science in Information Systems — Bahir Dar University

Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Advanced Programming, Advanced Database Systems, Full-Stack Web Development, Computer Networks.

SELECTED PROJECTS

Smart Irrigation System | IoT & Web Application

Developing an IoT-based irrigation solution that collects soil-moisture, water-level, temperature, and humidity readings through an ESP8266 and sends device data to a backend for dashboard monitoring. The system is designed to support automated pump control based on soil conditions and water availability.

Technologies: ESP8266, Arduino/C++, JavaScript, Node.js, Express, MongoDB, React

Campus Network Design | Cisco Networking

Designed a campus-style network topology and practiced IP addressing and subnetting, VLAN segmentation, inter-VLAN routing, switching, routing, wireless networking, and connectivity troubleshooting in Cisco Packet Tracer.

Technologies: Cisco Packet Tracer, Cisco IOS concepts, IPv4, VLANs, routing and switching

Web Application Development | Academic Projects

Built and maintained web-development projects as part of academic and personal learning, focusing on responsive interfaces, application logic, authentication concepts, and database integration.

Technologies: HTML, CSS, JavaScript, PHP, MySQL, Git, GitHub

TECHNICAL SKILLS

Web development: HTML5, CSS3, JavaScript, responsive design, PHP; familiarity with React and Node.js/Express

Databases: MySQL, MongoDB, XAMPP; database design and integration

Networking: TCP/IP, IPv4 addressing and subnetting, VLANs, switching, static and dynamic routing concepts, Cisco IOS basics, wireless networking, troubleshooting

Tools: Cisco Packet Tracer, Git, GitHub, Visual Studio Code, Postman

IoT & embedded: ESP8266, Arduino/C++, sensor integration, HTTP-based device-to-server communication

Professional strengths: Problem-solving, teamwork, communication, adaptability, and willingness to learn

TRAINING & CERTIFICATIONS

• Cisco CCNA 1: Introduction to Networks — Bahir Dar University

• Cisco CCNA 2: Switching, Routing and Wireless Essentials — Bahir Dar University
